

# VEILE

Blackened Horror Metal

VEILE expels the spring equinox with their blackened horror metal, obscuring the imminent lighter days under a veile of dark and unsettling compositions.

VEILE is the creative outlet of composer/guitarist Charles Edward Alexander Hedger (a.i. MAYHEM, R-KOMPLEX, drummer Frank Skillpero (a.i. GOD DETHRONED, THE MONOLITH DEATHCULT [session] and vocalist/multi-instrumentalist/composer Anabelle.

Unassociated with any of the names the members have on their resumé, VEILE operates as a DIY entity on the black & horror metal spectrum. Acting as their own manager & label, the band chooses to release their attacks on your nerves through their own fictional label 'SPECTRE OF DARKNESS'.

VEILE's first EP 'THE SHOST SONATA' is released on August 27, 2021, containing three dark and unsettling compositions, haunting orchestrations and unseen spectacles of multidimensional, sometimes nearly psychotic vocal outbursts.
